

Step 1 Analysis Results: WHERE ARE THE TOP PERFORMING CONNECTIONS?

Select top 5 connections with highest scores (Top 5 Corridors in each criterion receive 1 point each)

Connection ID Number	Length (miles)	Name	Preliminary Corridor (subject to change as alignments are defined in Step 3)	From	To	Situation Appraisal								TOAL SCORE	NOTES
						Most Frequently Studied Connections	Regional Anchors	Regional Travel Markets	Jobs within 1/2 Mile (2010+ 2040)	Population within 1/2 Mile (2010+ 2040)	Transit Supportive Land Use and CRAs Served	Least Linear Miles in Hurricane Cat 1-3 Flood Area	Greatest Number of Cultural Amenities		
23	12.83	Westshore to Tampa & USF	I-275, Fowler	Westshore Area	USF	1	1	1	0.5	1	0	1	1	5.5	Connections #23, #1, #44, and #61 have been combined into one connection (WESLEY CHAPEL, USF, TAMPA, ST. PETERSBURG) as they serve the same travel market (as represented by the dark blue fill)

0.5 points awarded for both 2010 and 2040 volumes, so that both time horizons combined equal 1 full point

The metric used for scoring is the average per mile figure in order to eliminate biases for longer connections

Step 1 Analysis Results: Employment

0.5 points awarded for both 2010 and 2040 total jobs by TAZ within 1/2 mile of connection, so that both time horizons combined equal 1 full point

The metric used for scoring is the average per mile figure in order to eliminate biases for longer connections

Step 1 Analysis Results: Population

NOTES

0.5 points awarded for both 2010 and 2040 total population by TAZ within 1/2 mile of connection, so that both time horizons combined equal 1 full point

The metric used for scoring is the average per mile figure in order to eliminate biases for longer connections

Step 1 Analysis Results: Transit Supportive Land Uses
